The request from Eastern points continues limited on account of the narrow margin between prices here and there, and with no really urgent competition there was naturally a weakness in the market from the start this morning. The first sales, however, of strictly good hogs were at about yesterday's prices. Later there was evidence of 2520 decline, and before the close all kinds were selling fully 5c lower than yesterday. UNION STOCKYARDS, INDIANAPOLIS comparatively liberal, about 450 head having arrived for the regular sale of the Blair-Baker Horse Company, to-day. The quality was hardly as satisfactory as the high average representance of buyers was good and the demand comparatively liberal, it required a little more force to consummate sales, and some of the less debest horses in their class, however, sold as high as they have at any time recently. Extra high going coach horses sold as high as \$300, but, of course, this was far above the average for a good kind in that class. The best heavy horses sold around \$200, with good chunks at \$100@150, and the more ordinary grades sold from \$60@90. About half the supply changed owners in the forenoon, and at a late hour it looked like a good clearance would be made

STRENGTH OF THE COARSE GRAIN HELPS ALL THE CEREALS.

CHICAGO, March 27 .- A firmer undertone in which routine news played its part, was observable in the grain markets today. Corn, which was the most active, closed 14@%c higher for May, while wheat closed %c and oats a shade improved. Provisions were dull and irregular, closing 21/20 higher to a shade lower.

Trade in corn was active the greater part 69@704c. of the session, but the volume of business was smaller than has been the average recently. The market, however, showed a resumption of the advancing tendency, terday. Profit-taking was still against the price, but the pressure was reduced. On ed last week, and notwithstanding the attend- the other hand, there seemed to be less sirable grades were inclined to weakness. The roads, unsettled weather and a reduction for the week at close to 7,000,000 lbs. There the basic strength of the market was due. 421/4@421/2c, and under liberal realizing sales, which followed a further advance to 42%@ 42%c, reacted to 42%@42%c. Longs sold liberally on this advance, but were well met, and the market closed firm, May 1/40%c higher, at 421/2c. Local receipts were 152 cars, 11 of contract grade.

The corn strength, renewed alarm over strained relations between Japan and Russia and somewhat alarming Southwestern reports of Hessian fly damage caused a rally near the end. Shorts covered liberally and May rallied sharply to 76c, and, despite profit-taking, closed firm, %c over yesterday, at 75%@76c. Exporters reported la loads taken, while seaboard clearances off, cases returned; new whitewood cases indespite profit-taking, closed firm, %c over 5.35; bucks, \$3.50@4; common to prime lambs, \$5.75@6.20; two loads at \$6.25; clipped lambs, were equal, in wheat and flour, to 522,000 bu. Local receipts were 75 cars, 2 of contract grade. The market for oats was dull, narrow and unimportant during the forenoon, with the tone easier. Later, in sympathy with wheat and corn, a firmer tone gained a

foothold, and with it the duliness took flight. May sold between 24%c and 25%c, sales at \$5.80@5.92\\. Heavy, \$5.90@6.02\\\; mixed and closed a shade nigher, at 25@25%c. Receipts were 115 cars. Provisions were dull and irregular. The tone early was easier on a drop in prices at the yards and the arrival of a greater number of hogs than had been expected, but prices hardened later, in sympathy with the leading grain markets. The close, however, seemed rather easy. May pork sold between \$15.571/2 and \$15.75, and closed cows and heifers, \$404.75; canners, \$1.2502.75; bulls, \$304.15; Texas and Indian steers, \$3.550 at \$1.0508 and heifers \$2.502.60
